★ WESTSTAR

THE HISTORY OF MAXUS

The Maxus V80 was first manufactured by the British Leyland DAF Vans (LDV) Group Limited based in Birmingham. LDV has a strong heritage of being Europe's top selling brand vans, supplying vehicles for Britain's Royal Mail and Royal Bank. Today, LDV is known as Maxus, which is a division of Shanghai Automobile and Industrial Corporation (SAIC), a Fortune 500 Company and China's largest automotive manufacturer.

BUILT TO WORK

2019

EV80 electric commercial van launched for global markets

New facelifted model released with a 6-speed manual and 6-speed Automated Manual Transmission

2022

THE LEGACY CONTINUES

SAIC, the name behind Maxus-LDV is the largest automotive company in China. Based in Shanghai, SAIC produces almost 7,000,000 vehicles each year for both domestic and international markets and is a Fortune Global 500 listed company with almost 100,000 employees

The company has a number of well-known brands within its portfolio including, since 2010, the acclaimed Maxus-LDV range of LCV's. By 2020, SAIC will have invested more than €2 billion in Maxus-LDV, with a strong focus of safety, innovation, and the introduction of new products to the range, including a suite of EV's that are already setting the standard for the future of eco-fuelled commercial motoring.

RENOWNED AUTOMOTIVE DISTRIBUTOR

The Weststar Group is one of Malaysia's most renowned vehicle importers and distributors with close to 25 years of experience in the automotive business

We are proud to be associated with SAIC MAXUS, a Fortune 500 company, in introducing the Maxus range of vehicles to Malaysian market. This range includes the generation of Britain's most iconic van, the Maxus V80

BRIGHT FUTURE AHEAD

Maxus-LDV is the name for high-quality vehicles that offer a range of options to suit every delivery need. And now, with a newly-launched series of light commercial electric vehicles from which to choose, with Maxus-LDV you can future proof your fleet whilst relegating hefty congestion charges, road fund license, and carbon emissions to the past

Innovation is at the forefront of Maxus-LDV, the future means state-of-the-art technology across all models. Our focus is firmly on the future with an emphasis on electric, hybrid, and hydrogen vehicles.

MANUFACTURED FOR MARKETS WORLDWIDE

Shanghai-based SAIC Motor introduced Maxus in 2011, making it the brand we know today. In 2017, over 7,000,000 vehicles were produced for domestic and export markets, ranking it the 7th largest vehicle manufacturer in the world, producing vehicles for international brands, such as VW and GM, along with its own iconic brands – MG and Maxus.

The Maxus brand has now been launched in a number of international markets and is making impressive progress in establishing itself in Europe and other countries worldwide.
